OSU-CHS Graduate Programs Video Transcript

0:00

Camera pans right in an auditorium with graduates in caps and gowns sitting in neat rows in the center of the room. There are spectators filling the rows encircling them and people sitting on the stage. Behind the stage is a large sign reading “Welcome commencement 2026.”

0:02

The camera cuts to an overhead drone shot of the OSU-CHS campus with the river and downtown Tulsa in the background.

The voice Dr. Johnny Stephens, CHS president can be heard over the footage.

Dr. Stephens: Over the past decade, we've seen tremendous growth in our graduate programs.

0:06

The camera cuts to Dr. Stephens addressing the camera directly. He is standing in front of bookshelves filled with photos, art, and books.

Dr. Stephens: This speaks to the quality of our faculty as well as the flexibility in offering online programs.

0:12

The camera shows several short cuts of a man sitting at a desk working on a computer, a woman’s computer screen working on an OSU dashboard, and a woman behind a desk meeting with a man in front of her with books in their hands before cutting back to Dr. Stephens.

0:14

Dr. Stephens: Our graduate students are central to our mission and will have an impact across Oklahoma and beyond.

0:19

The camera cuts to a man in front of a computer screen where he is having a virtual meeting with three other individuals.

0:21

Dr. Stephens: Whether you're in our online community or located here in Tulsa, Oklahoma, we are committed to your academic success.

0:24

The camera cuts to a man and woman walking on campus with a large OSU cowboy boot sculpture in the background, then to a graduate having a sash placed over their head, then to an office where a man is writing on a digital board conversing with two women.

0:29

The camera cut to Health Care Administration Program Manager, Amanda Benn, DHA. She is on campus sitting inside in front of a window.

Amanda Benn: One of the most important things to know is that your program is your home base.

0:32

Amanda Benn: Your faculty, staff, and advisers are here to help you be successful as a part of the CHS community.

0:41

The camera cuts to a panning show starting on a screen with science based textbooks and ending on two women sitting at a table discussing.

Amanda Benn: Whether you're online or on campus, we have the resources to help you be successful.

0:43

The camera cuts to a man speaking into a microphone in front of a computer screen, then to a woman witting in a chair, working on a laptop.

Amanda Benn: Our goal is to make students feel connected regardless of where they're learning.

0:48

The camera cuts to a computer screen where the cursor selects courses and then CHS Forensic Sciences Student Community from a left side navigation bar then being directed to a page with a calendar of events. The camera then cuts back to Amanda Benn.

Amanda Benn: While your experience may look different than somebody on campus, you still have access to the same student services, library resources, and academic support.

0:57

The camera cuts to a group of five sitting around a conference room table with papers and a laptop discussing.

We hope students know they're a part of the CHS community and they have support throughout their academic journey.

1:01

The camera cuts briefly to another drone shot of CHS campus before an animation of an orange diagonal background takes over the screen and the OSU Center for Health Sciences logo dissolves in.
